VOLUME 76 • SUBJECT INDEX

abdominal distension, High frequency oscillatory ventilation in infants with increased intra-abdominal pressure, **F123**

absorption, Gastrointestinal handling of [1-^{13}C]palmitic acid in healthy controls and patients with cystic fibrosis, **425**

acknowledgments and authors, Acknowledgments and authors: *letter,* **478**

Altruism under fire: *letter,* **479**

acute lymphoblastic leukaemia, Survival and endocrine outcome after testicular relapse in acute lymphoblastic leukaemia, **190**

acute transverse myelopathy, High dose methylprednisolone in severe acute transverse myelopathy, **167**

adolescent, Sexuality of young women surviving leukaemia, **197**

adoption, Foster and adoptive mothers' assessment of permanent family placements, **231**

Outcome in placements for adoption or long term fostering, **227**

adrenal function, Adrenal function and high dose inhaled corticosteroids for asthma, **405**

Africa, Comparison of milk and maize based diets in kwashiorkor, **242**

Intestinal permeability in kwashiorkor, **236**

aldose reductase, Metabolic cataracts in newly diagnosed diabetes, **118**

allegations of assault, Guarding paediatricians against allegations of assault: *letter,* **477**

allergy, Respiratory status and allergy nine to 10 years after acute bronchiolitis, **315**

altruism, Altruism under fire: *letter,* **479**

aminopenicillins, Aminopenicillin allergy, **513**

amphotericin B, Controlled pilot study of rapid amphotericin B infusions, **165**

androgen insensitivity syndrome, Phenotypic diversity in siblings with partial androgen insensitivity syndrome, **529**

androgen receptor mutations, Phenotypic diversity in siblings with partial androgen insensitivity syndrome, **529**

anencephaly, Involvement of deprivation and environmental lead in neural tube defects: a matched case-control study, **107**

antenatal, Current state of antenatal in utero surgical interventions, **F134**

antenatal hydronephrosis, Clinical relevance and implications of antenatal hydronephrosis, **F31**

antero-posterior diameter of the renal pelvis, Clinical relevance and implications of antenatal hydronephrosis, **F31**

anthropometry, Nutritional impact of antipseudomonas intravenous antibiotic courses in cystic fibrosis, **437**

Nutritional support and growth in thalassaemia major, **509**

antibiotics, Nutritional impact of antipseudomonas intravenous antibiotic courses in cystic fibrosis, **437**

antimony, Urinary antimony in infancy, **432**

apparent life threatening events, Heart rate response profiles during head upright tilt test in infants with apparent life threatening events, **27**

Parental resuscitation techniques after apparent life threatening events in infancy: *letter,* **289**

arachidonic acid, Developmental quotient at 24 months and fatty acid composition of diet in early infancy: a follow up study, **421**

atopic dermatitis, Adult height in patients with childhood onset atopic dermatitis, **505**

Atopic eczema: its impact on the family and financial cost, **159**

atopy, Wheeze, cough, atopy, and indoor environment in the Scottish Highlands, **22**

autoimmune polyendocrinopathy-candidosis-ectodermal-dystrophy syndrome, Severe malabsorption in autoimmune polyendocrinopathy-candidosis-ectodermal dystrophy syndrome successfully treated with immunosuppression, **532**

autonomic nervous system, Assessment of spontaneous baroreflex sensitivity in neonates, **F108**

bacteraemia, Evaluation of a protocol for selective empiric treatment of fever without localising signs, **129**

bacterial growth, Surfactant improves lung function and mitigates bacterial growth in immature ventilated rabbits with experimentally induced neonatal group B streptococcal pneumonia, **F3**

bacterial meningitis, Cerebrospinal fluid nitric oxide metabolites and discrimination of bacterial meningitis from other causes of encephalopathy: *letter,* **290**

Hearing loss during bacterial meningitis, **134**

baroreflex sensitivity, Assessment of spontaneous baroreflex sensitivity in neonates, **F108**

base excess, Association between blood lactate and acid-base status and mortality in ventilated babies, **F15**

behaviour, Behaviour and physiological responses during prone and supine sleep in early infancy, **320**

bereavement care, A study of bereavement care after a sudden and unexpected death: *letter,* **80**

Bifidobacterium breve, Early administration of *Bifidobacterium breve* to preterm infants: randomised controlled trial, **F101**

bioelectrical analysis, Nutritional impact of antipseudomonas intravenous antibiotic courses in cystic fibrosis, **437**

bioimpedance, Nutritional support and growth in thalassaemia major, **509**

biphosphonates, Biphosphonates: *current topic,* **73**

bisphosphonate, Hypercalcaemia in osteogenesis imperfecta treated with pamidronate, **169**

bleomycin assay, Plasma free iron: a possible cause of oedema in kwashiorkor, **54**

blood cultures, Blood culture volume and detection of coagulase negative staphylococcal septicaemia in neonates, **F57**

blood lactate, Association between blood lactate and acid-base status and mortality in ventilated babies, **F15**

blood lipids, Relation between dietary fat and energy and micronutrient intakes, **416**

blood pressure, Assessment of spontaneous baroreflex sensitivity in neonates, **F108**

Effects of bolus tube feeding on cerebral blood flow velocity in neonates, **F54**

Intravenous nicardipine in hypertensive preterm infants, **F126**

Randomised controlled trial of colloid or crystalloid in hypotensive preterm infants, **F43**

blood transfusions, Randomised controlled double blind study of role of recombinant erythropoietin in the prevention of chronic lung disease, **F190**

body composition, Relationship between cardiopulmonary response to exercise and adiposity in survivors of childhood malignancy, **298**

body mass index, Relation between insulin-like growth factor-I, body mass index, and clinical status in cystic fibrosis, **304**

body weight, Respiratory rate and body mass in the first three years of life, **151**

bone marrow transplantation, Bone marrow transplantation for mucopolysaccharidosis type I: experience of two British centres, **92**

bone mineral content, Inflammatory bowel disease and predisposition to osteopenia, **325**

bone mineral content, Whole body bone mineral content in healthy children and adolescents, **9**

Assessment of bone status using the contact ultrasound bone analyser, **535**

Bonferroni factor, Gene polymorphisms and the use of the Bonferroni correction factor: when and when not to apply?: *letter,* **386**

book reviews, Book review of *Physical Signs of Child Abuse: letter,* **174**

brain dystrophin, The brain in muscular dystrophy: *letter,* **175**

brain tumours, Improving care for central nervous system tumours: a mood for change: *annotaion,* **88**

breast feeding, Faecal chymotrypsin in small for gestational age infants: effects of nucleotides and breast feeding, **F201**

Randomised controlled trial assessing the effectiveness of a booklet on the duration ofbreast feeding, **500**

breath test, ^{13}Carbon mixed triglyceride breath test and pancreatic enzyme supplementation in cystic fibrosis, **349**

breathing rate, Respiratory rate and body mass in the first three years of life, **151**

breech presentation, Perinatal risk factors for developmental dysplasia of the hip, **F94**

broadband ultrasound attenuation, Assessment of bone status using the contact ultrasound bone analyser, **535**

bronchiolitis, Immunological responses to respiratory syncytial virus infection in infancy, **210**

Respiratory status and allergy nine to 10 years after acute bronchiolitis, **315**

Ribavirin and bronchiolitis: variation in use in the UK: *letter,* **385**

bronchoalveolar lavage, Differential cytology of bronchoalveolar lavage fluid: *letter,* **174**

budesonide, Double blind placebo controlled trial of nebulised budesonide for croup, **155**

Campylobacter jejuni, Campylobacter 0:41 isolation in Guillain-Barré syndrome, **526**

cancer, Childhood cancer in schools with a radioactive lightning rod: *letter,* **479**

cancer treatments, Improving care for central nervous system tumours: a mood for change: *annotation,* **88**

capillary refilling time, Capillary refilling time in newborn babies: normal values, **F193**

carbohydrate, In vitro fermentation of carbohydrate by breast fed and formula fed infants, **249**

carbohydrate and lipid metabolism, Third trimester fetal growth and measures of carbohydrate and lipid metabolism in umbilical venous blood at term, **F21**

cardiac disease, Dental attitudes, knowledge, and health practices of parents of children with congenital heart disease, **539**

Stroke due to arterial disease in congenital heart disease: *letter,* **175**

cardiac output, Cardiovascular effects of intravenous midazolam after open heart surgery, **57**
cardiac surgery, Cardiovascular effects of intravenous midazolam after open heart surgery, **57**
CD45, Severe combined immunodeficiency with abnormalities in expression of the common leucocyte antigen, CD45, **163**
ceftriaxone, Evaluation of a protocol for selective empiric treatment of fever without localising signs, **129**
central nervous system neoplasm, Corticosteroids in the management of central nervous system tumours: *personal practice,* **76**
central nervous system tumours, Improving care for central nervous system tumours: a mood for change: *annotation,* **88**
central-peripheral temperature difference, Temperature control in very low birthweight infants during first five days of life, **F47**
cerebral blood flow velocity, Effects of bolus tube feeding on cerebral blood flow velocity in neonates, **F54**
cerebral infarction, Unilateral neonatal cerebral infarction in full term infants, **F88**
cerebral malaria, Intracranial hypertension in Africans with cerebral malaria, **219**
chemotherapy, Visual pathway glioma: an erratic tumour with therapeutic dilemmas, **259**
chickenpox, Mechanisms of ischaemic stroke after chickenpox, **522**
child abuse, Book review of *Physical Signs of Child Abuse: letter,* **174**
child protection, Field trial of graded care profile (GCP) scale: a new measure of care, **337**
childhood malignancy, Relationship between cardiopulmonary response to exercise and adiposity in survivors of childhood malignancy, **298**
chromosome 22q11 microdeletion, Chromosome 22q11 microdeletion and isolated conotruncal heart defects: *letter,* **79**
chromosome 6, Aetiopathology and genetic basis of neonatal diabetes, **F39**
chronic lung disease of prematurity, Assessment of pulmonary function in resolving chronic lung disease of prematurity, **F113**
chronic lung disease, Randomised controlled double blind study of role of recombinant erythropoietin in the prevention of chronic lung disease, **F190**
chymotrypsin, Faecal chymotrypsin in small for gestational age infants: effects of nucleotides and breast feeding, **F201**
ciprofloxacin, Ciprofloxacin treatment of bacterial endocarditis involving prosthetic material after cardiac surgery, **68**
cleft palate, Height and weight achievement in cleft lip and palate: *correction,* **70**
clinical research, UK paediatric clinical research under threat: *annotation,* **1**
clinical signs, Predictors of hypoxaemia in hospital admissions with acute lower respiratory tract infection in a developing country, **310**
clinical trials, Clinical trials: towards good practice, **283**
coagulase negative staphylococci, Blood culture volume and detection of coagulase negative staphylococcal septicaemia in neonates, **F57**
coarctation, Hypertension secondary to progressive vascular neurofibromatosis, **454**
cochlea, Hearing loss during bacterial meningitis, **134**
cochlear implantation, Cochlear implantation after bacterial meningitis: the dangers of delay, **139**
codeine, Neonatal abstinence syndrome due to codeine, **F59**
coeliac disease, Influence of infant feeding and gluten intake on coeliac disease, **113**
cognitive ability, Differential effects of preterm birth and small gestational age on cognitive and motor development, **F75**
cognitive impairment, Visual impairment in very low birthweight children, **F82**
colitis, Non-infective colitis in infancy: evidence in favour of minor immunodeficiency in its pathogenesis, **345**
colloid, Randomised controlled trial of colloid or crystalloid in hypotensive preterm infants, **F43**
colony stimulating factors, Haemopoietic colony stimulating factors for preterm neonates, **F128**
compliance, Profile of non-compliance in lymphoblastic leukaemia, **365**
complications, Unilateral multicystic dysplastic kidney: the case for nephrectomy, **31**
computed tomography, Computed tomography in chronic inflammatory bowel disease, **428**
conditionally essential amino acids, Urinary excretion of 5-L-oxoproline (pyroglutamic acid) during early life in term and preterm infants, **F152**
Confidential Enquiry into Stillbirths and Deaths in Infancy, Cot death after CESDI: *current topic,* **171**
congenital abnormalities, Children conceived by in vitro fertilisation after fresh embryo transfer, **F70**
congenital heart defects, Interventional cardiology: *annotation,* **6**
congenital hip dislocation, Perinatal risk factors for developmental dysplasia of the hip, **F94**
congenital hypothyroidism, Audit of screening programme for congenital hypothyroidism in Scotland 1979–93, **411**
congenital malformations, Current state of antenatal in utero surgical interventions, **F134**
congenital total lipodystrophy, Congenital total lipodystrophy and peripheral pulmonary artery stenosis, **456**
conotruncal heart defects, Chromosome 22q11 microdeletion and isolated conotruncal heart defects: *letter,* **79**
constipation, Dietary fibre and the occurrence of gut symptoms in cystic fibrosis, **35**
contact ultrasound bone analyser, Assessment of bone status using the contact ultrasound bone analyser, **535**
continuous positive airway pressure, Tracheobronchomalacia in preterm infants with chronic lung disease, **F203**
contrast sensitivity, Visual impairment in very low birthweight children, **F82**
convulsions, Retinal haemorrhages and convulsions, **449**
correction, Hearing loss during bacterial meningitis, **386**
corticosteroids, Corticosteroids in the management of central nervous system tumours: *personal practice,* **76**
cot death, Cot death after CESDI: *current topic,* **171**
cotinine, Urinary antimony in infancy, **432**
cots, Neonatal intensive care provision in the United Kingdom 1992–3, **F197**
cough, Wheeze, cough, atopy, and indoor environment in the Scottish Highlands, **22**
Crohn's disease, Computed tomography in chronic inflammatory bowel disease, **428**
Experience of percutaneous endoscopic gastrostomy in children with Crohn's disease, **141**
croup, Double blind placebo controlled trial of nebulised budesonide for croup, **155**
crystalloid, Randomised controlled trial of colloid or crystalloid in hypotensive preterm infants, **F43**
cystic fibrosis, ^{13}Carbon mixed triglyceride breath test and pancreatic enzyme supplementation in cystic fibrosis, **349**
Diagnosing cystic fibrosis: blood, sweat, and tears: *annotation,* **85**
Dietary fibre and the occurrence of gut symptoms in cystic fibrosis, **35**
ΔF508 in cystic fibrosis: willing but not able: *current topic,* **278**
Gastrointestinal handling of [1-^{13}C]palmitic acid in healthy controls and patients with cystic fibrosis, **425**
Heart-lung transplantation for patients under 10 with cystic fibrosis, **38**
Nutritional impact of antipseudomonas intravenous antibiotic courses in cystic fibrosis, **437**
Postural drainage and gastro-oesophageal reflux in infants with cystic fibrosis, **148**
Potassium and sodium dependent glucose transport: implications for cystic fibrosis: *letter,* **478**
Relation between insulin-like growth factor-I, body mass index, and clinical status in cystic fibrosis, **304**

data retrieval, Neonatal intensive care provision in the United Kingdom 1992–3, **F197**
deafness, Cochlear implantation after bacterial meningitis: the dangers of delay, **139**
dental health, Dental attitudes, knowledge, and health practices of parents of children with congenital heart disease, **539**
developing countries, Predictors of hypoxaemia in hospital admissions with acute lower respiratory tract infection in a developing country, **310**
developmental quotient, Developmental quotient at 24 months and fatty acid composition of diet in early infancy: a follow up study, **421**
diagnosis, Diagnosing cystic fibrosis: blood, sweat, and tears: *annotation,* **85**
diarrhoea, Randomised double blind study of hypotonic oral rehydration solution in diarrhoea, **272**
dietary fat, Relation between dietary fat and energy and micronutrient intakes, **416**
digestion, Fat digestion in the neonate: *current topic,* **F206**
disabilities, Children conceived by in vitro fertilisation after fresh embryo transfer, **F70**
disability, Injuries and the risk of disability in teenagers and young adults: *letter,* **175**
disease incidence, Incidence of insulin dependent diabetes mellitus in Karachi, Pakistan, **121**
disruption, Outcome in placements for adoption or long term fostering, **227**
dissection, Stroke due to arterial disease in congenital heart disease: *letter,* **175**
dopamine, Randomised trial of dopamine compared with hydrocortisone for the treatment of hypotensive very low birthweight infants, **F174**
Doppler echocardiography, Treatment of patent ductus arteriosus with ibuprofen, **F179**
Doppler ultrasonography, Neonatal symptomatic thromboembolism in Germany: two year survey, **F163**
Down's syndrome, A negative association between Down's syndrome and neuroblastoma: *letter,* **80**
Strategies for antenatal detection of Down's syndrome, **F26**
drug trials, Legislation and drug trials: *annotation,* **296**
dual energy x ray absorptiometry, Whole body bone mineral content in healthy children and adolescents, **9**

Assessment of bone status using the contact ultrasound bone analyser, **535**
Duchenne muscular dystrophy, The brain in muscular dystrophy: *letter,* **175**
dysgenetic male pseudohermaphroditism, Presence of Turner stigmata in a case of dysgenetic male pseudohermaphroditism with 45,X/46,X+mar karyotype, **268**

ECMO, Weaning strategy with inhaled nitric oxide treatment in persistent pulmonary hypertension of the newborn, **F118**
educational outcome, Audit of screening programme for congenital hypothyroidism in Scotland 1979–93, **411**
EGF receptors, Role of epidermal growth factor and transforming growth factor α in the developing stomach, **F158**
electroretinogram, Light reduction and the electroretinogram of preterm infants, **F168**
emergency department, Evaluation of a protocol for selective empiric treatment of fever without localising signs, **129**
encephalopathy, Cerebrospinal fluid nitric oxide metabolites and discrimination of bacterial meningitis from other causes of encephalopathy: *letter,* **290**
end diastolic flow velocity, Effect of absent end diastolic flow velocity in the fetal umbilical artery on subsequent outcome, **F35**
endocarditis, Ciprofloxacin treatment of bacterial endocarditis involving prosthetic material after cardiac surgery, **68**
endoscopic surgery, Current state of antenatal in utero surgical interventions, **F134**
energy requirements, Free-living energy expenditure and behaviour in late infancy, **490**
enteral nutrition, Experience of percutaneous endoscopic gastrostomy in children with Crohn's disease, **141**
epidermal growth factor, Role of epidermal growth factor and transforming growth factor α in the developing stomach, **F158**
epilepsy, Focal abnormalities detected by ^{18}FDG PET in epileptic encephalopathies: *letter,* **477**
epileptic encephalopathies, Focal abnormalities detected by ^{18}FDG PET in epileptic encephalopathies: *letter,* **477**
ethics committees, Legislation and drug trials: *annotation,* **296**
evidence-based medicine, Evidence-based surgery: interventions in a regional paediatric surgical unit, **50**
evolving phenotype, Evolving phenotype of Marfan's syndrome, **41**
exercise capacity, Relationship between cardiopulmonary response to exercise and adiposity in survivors of childhood malignancy, **298**
expert evidence, Judicial attitudes to expert evidence in children's cases: *annotation,* **485**

faecal incontinence, Bowel function, mental health, and psychosocial function in adolescents with Hirschsprung's disease, **100**
failure to thrive, Height and weight achievement in cleft lip and palate: *correction,* **70**
fat free mass, Free-living energy expenditure and behaviour in late infancy, **490**
fatty acids, Fat digestion in the neonate: *current topic,* **F206**
Gastrointestinal handling of [1-^{13}C]palmitic acid in healthy controls and patients with cystic fibrosis, **425**
fatty liver, Effect of growth hormone on fatty liver in panhypopituitarism, **537**
fermentation, In vitro fermentation of carbohydrate by breast fed and formula fed infants, **249**
fetal growth retardation, Third trimester fetal growth and measures of carbohydrate and lipid metabolism in umbilical venous blood at term, **F21**
fibre, Dietary fibre and the occurrence of gut symptoms in cystic fibrosis, **35**
financial cost, Atopic eczema: its impact on the family and financial cost, **159**
folic acid, Involvement of deprivation and environmental lead in neural tube defects: a matched case-control study, **107**
follow up, Minor neurological signs and perceptual-motor difficulties in prematurely born children, **F9**
formula feed, Faecal chymotrypsin in small for gestational age infants: effects of nucleotides and breast feeding, **F201**
fostering, Foster and adoptive mothers' assessment of permanent family placements, **231**
Outcome in placements for adoption or long term fostering, **227**
fragile X syndrome, Fragile X, iron, and neurodevelopmental screening in 8 year old children with mild to moderate learning difficulties, **264**
free iron, Plasma free iron: a possible cause of oedema in kwashiorkor, **54**

γ-glutamyl cycle Urinary excretion of 5-L-oxoproline (pyroglutamic acid) during early life in term and preterm infants, **F152**
gastro-oesophageal reflux, Postural drainage and gastro-oesophageal reflux in infants with cystic fibrosis, **148**
Posture and gastro-oesophageal reflux: a case for left lateral positioning, **254**
gene polymorphism, Gene polymorphisms and the use of the Bonferroni correction factor: when and when not to apply?: *letter,* **386**
Germany, Neonatal symptomatic thromboembolism in Germany: two year survey, **F163**
gingivitis, Dental attitudes, knowledge, and health practices of parents of children with congenital heart disease, **539**
glomerular filtration rate, Renal calcification in preterm infants: follow up at 4–5 years, **F185**
glucocorticosteroid, Corticosteroids in the management of central nervous system tumours: *personal practice,* **76**
glucose transport, Potassium and sodium dependent glucose transport: implications for cystic fibrosis: *letter,* **478**
gluten consumption, Influence of infant feeding and gluten intake on coeliac disease, **113**
glycine, Urinary excretion of 5-L-oxoproline (pyroglutamic acid) during early life in term and preterm infants, **F152**
good clinical practice, Clinical trials: towards good practice: *research methodology,* **283**
Graves' disease, Graves' disease associated with exophthalmos, cerebral ventricular dilatation and accelerated growth, **62**
group B streptococci, Surfactant improves lung function and mitigates bacterial growth in immature ventilated rabbits with experimentally induced neonatal group B streptococcal pneumonia, **F3**
growth, Adult height in patients with childhood onset atopic dermatitis, **505**
Height and weight achievement in cleft lip and palate: *correction,* **70**
growth acceleration, Graves' disease associated with exophthalmos, cerebral ventricular dilatation and accelerated growth, **62**
growth hormone, Effect of growth hormone on fatty liver in panhypopituitarism, **537**
growth hormone deficiency, Effect of growth hormone on fatty liver in panhypopituitarism, **537**
growth hormone treatment, Growth hormone treatment without a needle using the Preci-Jet 50 transjector, **65**
growth monitoring, Growth monitoring with the British 1990 growth reference, **47**
growth monitoring charts, Maternal comprehension of two growth monitoring charts in Sri Lanka, **359**
Guillain-Barré syndrome, Campylobacter 0:41 isolation in Guillain-Barré syndrome, **526**
gut, Fat digestion in the neonate: *current topic,* **F206**

haemolytic uraemic syndromes, Heterogeneity of atypical haemolytic uraemic syndromes, **518**
haemopoiesis, Haemopoietic colony stimulating factors for preterm neonates, **F128**
head injury, Head injury—abuse or accident?: *annotation,* **393**
health education, Dietary education and iron deficiency anaemia in the inner city, **144**
health information evaluation, Randomised controlled trial assessing the effectiveness of a booklet on the duration of breast feeding, **500**
hearing loss, Hearing loss during bacterial meningitis, **134**
heart rate, Assessment of spontaneous baroreflex sensitivity in neonates, **F108**
Heart rate response profiles during head upright tilt test in infants with apparent life threatening events, **27**
heart-lung transplantation, Heart-lung transplantation for patients under 10 with cystic fibrosis, **38**
height, Adult height in patients with childhood onset atopic dermatitis, **505**
Growth monitoring with the British 1990 growth reference, **47**
Helicobacter pylori, One week treatment for *Helicobacter pylori* infection, **352**
hemiplegia, Psychological aspects of hemiplegia: *annotation,* **177**
Unilateral neonatal cerebral infarction in full term infants, **F88**
heparin, Neonatal symptomatic thromboembolism in Germany: two year survey, **F163**
high frequency oscillatory ventilation, High frequency oscillatory ventilation in infants with increased intra-abdominal pressure, **F123**
high risk pregnancies, Effect of absent end diastolic flow velocity in the fetal umbilical artery on subsequent outcome, **F35**
Hirschsprung's disease, Bowel function, mental health, and psychosocial function in adolescents with Hirschsprung's disease, **100**
HIV, Respiratory morbidity from lymphocytic interstitial pneumonitis (LIP) in vertically acquired HIV infection, **334**
HIV infection, Malignancies in UK children with HIV infection acquired from mother to child transmission, **330**
HIV serostatus, Pulmonary manifestations in HIV seropositivity and malnutrition in Zimbabwe, **124**
HLA alleles, Influence of infant feeding and gluten intake on coeliac disease, **113**
human erythropoietin, Randomised controlled double blind study of role of recombinant erythropoietin in the prevention of chronic lung disease, **F190**
human herpes virus-6, Basal ganglia infarction associated with HHV-6 infection, **362**
hydrocortisone, Randomised trial of dopamine compared with hydrocortisone for the treatment of hypotensive very low birthweight infants, **F174**

hypercalcaemia, Hypercalcaemia in osteogenesis imperfecta treated with pamidronate, **169**
hypersensitivity, Aminopenicillin allergy, **513**
Season of birth as predictor of atopic manifestations, **341**
hypertension, Hypertension secondary to progressive vascular neurofibromatosis, **454**
Intravenous nicardipine in hypertensive preterm infants, **F126**
Unilateral multicystic dysplastic kidney: the case for nephrectomy, **31**
hypocitraturia, Hypocitraturia in patients with urolithiasis: *letter,* **174**
hypogonadism, Treatment of hypogonadal adolescent boys with long acting subcutaneous testosterone pellets, **495**
hypopituitarism, Effect of growth hormone on fatty liver in panhypopituitarism, **537**
hypotension, Randomised controlled trial of colloid or crystalloid in hypotensive preterm infants, **F43**
Randomised trial of dopamine compared with hydrocortisone for the treatment of hypotensive very low birthweight infants, **F174**
hypovolaemia, Temperature control in very low birthweight infants during first five days of life, **F47**
hypoxaemia, Predictors of hypoxaemia in hospital admissions with acute lower respiratory tract infection in a developing country, **310**

ibuprofen, Treatment of patent ductus arteriosus with ibuprofen, **F179**
immunoglobulin G subclasses, Non-infective colitis in infancy: evidence in favour of minor immunodeficiency in its pathogenesis, **345**
immunological responses, Immunological responses to respiratory syncytial virus infection in infancy, **210**
immunosuppression, Severe malabsorption in autoimmune polyendocrinopathy-candidosis-ectodermal dystrophy syndrome successfully treated with immunosuppression, **532**
impact on family, Atopic eczema: its impact on the family and financial cost, **159**
in utero, Current state of antenatal in utero surgical interventions, **F134**
indomethacin, Treatment of patent ductus arteriosus with ibuprofen, **F179**
indoor environment, Wheeze, cough, atopy, and indoor environment in the Scottish Highlands, **22**
infant colic, Use of sucrose as a treatment for infant colic, **356**
infant feeding habits, Influence of infant feeding and gluten intake on coeliac disease, **113**
infant pulmonary function, Assessment of pulmonary function in resolving chronic lung disease of prematurity, **F113**
infants, Non-infective colitis in infancy: evidence in favour of minor immunodeficiency in its pathogenesis, **345**
inflammatory bowel disease, Inflammatory bowel disease and predisposition to osteopenia, **325**
influenza vaccination, Response to influenza virus vaccination in vertical HIV infection, **215**
informed consent Obtaining informed consent for neonatal randomised controlled trials—an "elaborate ritual"? *annotation,* **F143**
inhaled corticosteroids, Adrenal function and high dose inhaled corticosteroids for asthma, **405**
inhaled nitric oxide, Weaning strategy with inhaled nitric oxide treatment in persistent pulmonary hypertension of the newborn, **F118**
injuries, Injuries and the risk of disability in teenagers and young adults: *letter,* **175**
injury prevention, Qualitative research methods in interventions in injury: *annotation,* **487**
inotropic support, Randomised controlled trial of colloid or crystalloid in hypotensive preterm infants, **F43**
insulin dependent diabetes mellitus, Incidence of insulin dependent diabetes mellitus in Karachi, Pakistan, **121**
insulin dependent diabetes, Metabolic cataracts in newly diagnosed diabetes, **118**
insulin-like growth factor binding protein-3, Relation between insulin-like growth factor-I, body mass index, and clinical status in cystic fibrosis, **304**
insulin-like growth factor-I, Relation between insulin-like growth factor-I, body mass index, and clinical status in cystic fibrosis, **304**
intensive care, Neonatal intensive care provision in the United Kingdom 1992–3, **F197**
interventional cardiology, Interventional cardiology: *annotation,* **6**
intestinal permeability, Comparison of milk and maize based diets in kwashiorkor, **242**
Intestinal permeability in kwashiorkor, **236**
intracranial pressure, Intracranial hypertension in Africans with cerebral malaria, **219**
Ireland, Legislation and drug trials: *annotation,* **296**
iron, Fragile X, iron, and neurodevelopmental screening in 8 year old children with mild to moderate learning difficulties, **264**
iron deficiency anaemia, Dietary education and iron deficiency anaemia in the inner city, **144**
Iron deficiency anaemia in infancy and early childhood: *personal view,* **549**

IVF, Children conceived by in vitro fertilisation after fresh embryo transfer, **F70**

Jenner, Jenner, romanticism, and research: *letter,* **81**
judicial attitudes, Judicial attitudes to expert evidence in children's cases: *annotation,* **485**

karyotype 45,X/46,X+mar, Presence of Turner stigmata in a case of dysgenetic male pseudohermaphroditism with 45,X/46,X+mar karyotype, **268**
kwashiorkor, Comparison of milk and maize based diets in kwashiorkor, **242**
Intestinal permeability in kwashiorkor, **236**
Plasma free iron: a possible cause of oedema in kwashiorkor, **54**

lactic acidosis, In vivo functional investigations of lactic acid in patients with respiratory chain disorders, **16**
late effects, Survival and endocrine outcome after testicular relapse in acute lymphoblastic leukaemia, **190**
lead, Involvement of deprivation and environmental lead in neural tube defects: a matched case-control study, **107**
learning difficulties, Fragile X, iron, and neurodevelopmental screening in 8 year old children with mild to moderate learning difficulties, **264**
leukaemia, Sexuality of young women surviving leukaemia, **197**
levamisole, Liver toxicity in a nephrotic patient treated with levamisole: *letter,* **289**
light exposure, Light reduction and the electroretinogram of preterm infants, **F168**
lipids, ^{13}Carbon mixed triglyceride breath test and pancreatic enzyme supplementation in cystic fibrosis, **349**
liver toxicity, Liver toxicity in a nephrotic patient treated with levamisole: *letter,* **289**
local ethical research committees, Obtaining informed consent for neonatal randomised controlled trials—an "elaborate ritual"? *annotation,* **F143**
long chain polyunsaturated fatty acids, Developmental quotient at 24 months and fatty acid composition of diet in early infancy: a follow up study, **421**
long term follow up, Bowel function, mental health, and psychosocial function in adolescents with Hirschsprung's disease, **100**
Lucina, 83, 292, 484
lung function, Surfactant improves lung function and mitigates bacterial growth in immature ventilated rabbits with experimentally induced neonatal group B streptococcal pneumonia, **F3**
lung growth, Assessment of pulmonary function in resolving chronic lung disease of prematurity, **F113**
lymphoblastic leukaemia, Profile of non-compliance in lymphoblastic leukaemia, **365**
lymphocytic interstitial pneumonitis, Respiratory morbidity from lymphocytic interstitial pneumonitis (LIP) in vertically acquired HIV infection, **334**

maculopapular rash, Aminopenicillin allergy, **513**
malabsorption, Severe malabsorption in autoimmune polyendocrinopathy-candidosis-ectodermal dystrophy syndrome successfully treated with immunosuppression, **532**
malignancy, Malignancies in UK children with HIV infection acquired from mother to child transmission, **330**
malnutrition, Nutritional support and growth in thalassaemia major, **509**
malnutrition, Pulmonary manifestations in HIV seropositivity and malnutrition in Zimbabwe, **124**
Marfan's syndrome, Evolving phenotype of Marfan's syndrome, **41**
marker studies, Evolving phenotype of Marfan's syndrome, **41**
Mary Pierrepont Montagu, Jenner, romanticism, and research: *letter,* **81**
maternal comprehension, Maternal comprehension of two growth monitoring charts in Sri Lanka, **359**
maternal serum screening, Strategies for antenatal detection of Down's syndrome, **F26**
measurement error, Growth monitoring with the British 1990 growth reference, **47**
meningitis, Cochlear implantation after bacterial meningitis: the dangers of delay, **139**
meningococcal disease, Preventative strategies on meningococcal disease: *annotation,* **178**
meningoencephalitis, Basal ganglia infarction associated with HHV-6 infection, **362**
6-mercaptopurine, Profile of non-compliance in lymphoblastic leukaemia, **365**
metabolic cataracts, Metabolic cataracts in newly diagnosed diabetes, **118**
metabolic decompensation, Early recognition of metabolic decompensation: *personal practice,* **555**
methaemoglobinaemia, Faulty sausage production causing methaemoglobinaemia, **367**
methylprednisolone, High dose methylprednisolone in severe acute transverse myelopathy, **167**
micturating cysto-urethrogram, Vesicoureteric reflux and timing of micturating cystourethrography after urinary tract infection, **275**

midazolam, Cardiovascular effects of intravenous midazolam after open heart surgery, 57
Continuous midazolam infusion as treatment of status epilepticus, 445
midwifery, Dr Percivall Willughby, MD (1596–1685): pioneer "man" midwife of Derby: *perinatal lessons from the past,* **F212**
mitochondrial disorders, In vivo functional investigations of lactic acid in patients with respiratory chain disorders, **16**
mitochondrial DNA, In vivo functional investigations of lactic acid in patients with respiratory chain disorders, **16**
mortality risk, Comparison of mortality risk: a score for very low birthweight infants, **F146**
motor development, Differential effects of preterm birth and small gestational age on cognitive and motor development, **F75**
motor skills, Visual impairment in very low birthweight children, **F82**
mucopolysaccharidosis type I, Bone marrow transplantation for mucopolysaccharidosis type I: experience of two British centres, **92**
multicentre randomised controlled trial, Comparing two methods of follow up in a multicentre randomised trial: *research methodology,* **369**
multicystic dysplastic kidney, Unilateral multicystic dysplastic kidney: the case for nephrectomy, **31**
multiple births, Children conceived by in vitro fertilisation after fresh embryo transfer, **F70**
myelitis, High dose methylprednisolone in severe acute transverse myelopathy, **167**

necrotising enterocolitis, Early administration of *Bifidobacterium breve* to preterm infants: randomised controlled trial, **F101**
needle phobia, Growth hormone treatment without a needle using the Preci-Jet 50 transjector, **65**
neglect, Field trial of graded care profile (GCP) scale: a new measure of care, **337**
neonatal abstinence syndrome, Neonatal abstinence syndrome due to codeine, **F59**
neonatal diabetes, Aetiopathology and genetic basis of neonatal diabetes, **F39**
neonatal intensive care, Association between blood lactate and acid-base status and mortality in ventilated babies, **F15**
Use of neonatal intensive care unit as a safe place for neonatal surgery: *commentary,* **F51**
neonatal screening, Audit of screening programme for congenital hypothyroidism in Scotland 1979–93, **411**
neonatal surgery, Use of neonatal intensive care unit as a safe place for neonatal surgery: *commentary,* **F51**
nephrectomy, Unilateral multicystic dysplastic kidney: the case for nephrectomy, **31**
nephrotic syndrome, Liver toxicity in a nephrotic patient treated with levamisole: *letter,* **289**
neuroblastoma, A negative association between Down's syndrome and neuroblastoma: *letter,* **80**
neurodevelopmental outcome, Unilateral neonatal cerebral infarction in full term infants, **F88**
neurodevelopmental screening, Fragile X, iron, and neurodevelopmental screening in 8 year old children with mild to moderate learning difficulties, **264**
neurofibromatosis, Hypertension secondary to progressive vascular neurofibromatosis, **454**
Visual pathway glioma: an erratic tumour with therapeutic dilemmas, **259**
neurological sequelae, Basal ganglia infarction associated with HHV-6 infection, **362**
neurological signs, Minor neurological signs and perceptual-motor difficulties in prematurely born children, **F9**
neutrophils, Haemopoietic colony stimulating factors for preterm neonates, **F128**
new antiepileptic drugs, The new antiepileptic drugs: *letter,* **81**
new subspecialty, Paediatric nutrition as a new subspecialty: is the time right? *annotation,* **3**
nicardipine, Intravenous nicardipine in hypertensive preterm infants, **F126**
nitric oxide, Activation of the L-arginine nitric oxide pathway in severe sepsis, **203**
nitric oxide metabolites, Cerebrospinal fluid nitric oxide metabolites and discrimination of bacterial meningitis from other causes of encephalopathy: *letter,* **290**
nitrogen oxides, Activation of the L-arginine nitric oxide pathway in severe sepsis, **203**
non-accidental injuries, Retinal haemorrhages and convulsions, **449**
non-Hodgkin's lymphoma, Malignancies in UK children with HIV infection acquired from mother to child transmission, **330**
nucleotides, Faecal chymotrypsin in small for gestational age infants: effects of nucleotides and breast feeding, **F201**
nursery containers, Capillary refilling time in newborn babies: normal values, **F193**
nutrition, Maternal comprehension of two growth monitoring charts in Sri Lanka, **359**
Paediatric nutrition as a new subspecialty: is the time right? *annotation,* **3**

oedema, Plasma free iron: a possible cause of oedema in kwashiorkor, **54**
oligoarthritis, Management of childhood arthritis. Part 2: chronic arthritis: *rheumatology,* **541**
optic glioma, Visual pathway glioma: an erratic tumour with therapeutic dilemmas, **259**
oral rehydration therapy, Randomised double blind study of hypotonic oral rehydration solution in diarrhoea, **272**
organ donation, Paediatric organ donors: *letter,* **385**
organ system failure, Activation of the L-arginine nitric oxide pathway in severe sepsis, **203**
osmolarity, Randomised double blind study of hypotonic oral rehydration solution in diarrhoea, **272**
osteogenesis imperfecta, Hypercalcaemia in osteogenesis imperfecta treated with pamidronate, **169**
osteogenis imperfecta, Biphosphonates: *current topic,* **73**
osteopenia, Inflammatory bowel disease and predisposition to osteopenia, **325**
osteoporosis, Biphosphonates: *current topic,* **73**
otoacoustic emissions, Hearing loss during bacterial meningitis, **134**
outcome, Outcome in placements for adoption or long term fostering, **227**
outcome measures, Comparing two methods of follow up in a multicentre randomised trial: *research methodology,* **369**
oxygen saturation, Effects of bolus tube feeding on cerebral blood flow velocity in neonates, **F54**

paediatric HIV infection, Response to influenza virus vaccination in vertical HIV infection, **215**
paediatric journal, When science sneezes the journal catches a cold: *annotation,* **8**
paediatric MRCP (UK) clinical examination, How to organise the paediatric MRCP (UK) part II clinical examination, **545**
paediatric surgery, Evidence-based surgery: interventions in a regional paediatric surgical unit, **50**
paediatricians, Guarding paediatricians against allegations of assault: *letter,* **477**
Pakistan, Incidence of insulin dependent diabetes mellitus in Karachi, Pakistan, **121**
pamidronate, Hypercalcaemia in osteogenesis imperfecta treated with pamidronate, **169**
paraplegia, High dose methylprednisolone in severe acute transverse myelopathy, **167**
parenting, Field trial of graded care profile (GCP) scale: a new measure of care, **337**
patent ductus arteriosus, Treatment of patent ductus arteriosus with ibuprofen, **F179**
peer review, When science sneezes the journal catches a cold: *annotation,* **8**
perceptual-motor difficulties, Minor neurological signs and perceptual-motor difficulties in prematurely born children, **F9**
Percivall Willughby, Dr Percivall Willughby, MD (1596–1685): pioneer "man" midwife of Derby: *perinatal lessons from the past,* **F212**
percutaneous endoscopic gastrostomy, Experience of percutaneous endoscopic gastrostomy in children with Crohn's disease, **141**
perinatal risk factors, Perinatal risk factors for developmental dysplasia of the hip, **F94**
perioperative mortality, Use of neonatal intensive care unit as a safe place for neonatal surgery: *commentary,* **F51**
peripheral pulmonary stenosis, Congenital total lipodystrophy and peripheral pulmonary artery stenosis, **456**
pH, Association between blood lactate and acid-base status and mortality in ventilated babies, **F15**
pH monitor, Postural drainage and gastro-oesophageal reflux in infants with cystic fibrosis, **148**
phenotype, Diagnosing cystic fibrosis: blood, sweat, and tears: *annotation,* **85**
phenotypic diversity, Phenotypic diversity in siblings with partial androgen insensitivity syndrome, **529**
philately, Paediatric philately: *collectors' corner,* **287**
phototherapy, Capillary refilling time in newborn babies: normal values, **F193**
physical activity, Free-living energy expenditure and behaviour in late infancy, **490**
pituitary tumours, Transsphenoidal surgery for pituitary tumours, **398**
plasma cortisol, Randomised trial of dopamine compared with hydrocortisone for the treatment of hypotensive very low birthweight infants, **F174**
pneumonia, Predictors of hypoxaemia in hospital admissions with acute lower respiratory tract infection in a developing country, **310**
polyarticular arthritis, Management of childhood arthritis. Part 2: chronic arthritis: *rheumatology,* **541**
positioning, Posture and gastro-oesophageal reflux: a case for left lateral positioning, **254**
post-haemorrhagic ventricular dilatation, Comparing two methods of follow up in a multicentre randomised trial: *research methodology,* **369**
post-placement support, Foster and adoptive mothers' assessment of permanent family placements, **231**

postural drainage, Postural drainage and gastro-oesophageal reflux in infants with cystic fibrosis, **148**
predictive value, Predictive value of a 24 hour tuberculin skin test evaluation, **452**
prematurity, Minor neurological signs and perceptual-motor difficulties in prematurely born children, **F9**
prevention, Preventative strategies on meningococcal disease: *annotation,* **178**
primary preventative measures, Dietary education and iron deficiency anaemia in the inner city, **144**
prolidase deficiency, Prolidase deficiency and systemic lupus erythematosus, **441**
prosthetic material, Ciprofloxacin treatment of bacterial endocarditis involving prosthetic material after cardiac surgery, **68**
protein S, Mechanisms of ischaemic stroke after chickenpox, **522**
protein synthesis, Urinary excretion of 5-L-oxoproline (pyroglutamic acid) during early life in term and preterm infants, **F152**
psoriatic arthritis, Management of childhood arthritis. Part 2: chronic arthritis: *rheumatology,* **541**
psychological aspects, Psychological aspects of hemiplegia: *annotation,* **177**
psychosocial function, Bowel function, mental health, and psychosocial function in adolescents with Hirschsprung's disease, **100**
pulmonary infiltrates, Differential cytology of bronchoalveolar lavage fluid: *letter,* **174**
pulmonary manifestations, Pulmonary manifestations in HIV seropositivity and malnutrition in Zimbabwe, **124**
pyloric stenosis, A diagnosis obscured: pyloric stenosis with situs inversus: *letter,* **385**

qualitative research methods, Qualitative research methods in interventions in injury: *annotation,* **487**

rabbits, Surfactant improves lung function and mitigates bacterial growth in immature ventilated rabbits with experimentally induced neonatal group B streptococcal pneumonia, **F3**
radiation therapy, Visual pathway glioma: an erratic tumour with therapeutic dilemmas, **259**
radioactive lightning rod, Childhood cancer in schools with a radioactive lightning rod: *letter,* **479**
randomised controlled trial, Randomised controlled trial assessing the effectiveness of a booklet on the duration ofbreast feeding, **500**
randomised controlled trials, Obtaining informed consent for neonatal randomised controlled trials—an "elaborate ritual"? *annotation,* **F143**
rectal bleeding, Non-infective colitis in infancy: evidence in favour of minor immunodeficiency in its pathogenesis, **345**
refractory, Continuous midazolam infusion as treatment of status epilepticus, **445**
renal artery stenosis, Hypertension secondary to progressive vascular neurofibromatosis, **454**
renal calcification, Renal calcification in preterm infants: follow up at 4–5 years, **F185**
research assessment exercise, UK paediatric clinical research under threat: *annotation,* **1**
respiratory development, Respiratory rate and body mass in the first three years of life, **151**
respiratory distress syndrome, Effect of absent end diastolic flow velocity in the fetal umbilical artery on subsequent outcome, **F35**
Treatment of patent ductus arteriosus with ibuprofen, **F179**
respiratory failure, High frequency oscillatory ventilation in infants with increased intra-abdominal pressure, **F123**
respiratory status, Respiratory status and allergy nine to 10 years after acute bronchiolitis, **315**
respiratory support, Randomised controlled double blind study of role of recombinant erythropoietin in the prevention of chronic lung disease, **F190**
respiratory syncytial virus, Immunological responses to respiratory syncytial virus infection in infancy, **210**
resuscitation, Parental resuscitation techniques after apparent life threatening events in infancy: *letter,* **289**
retinal development, Light reduction and the electroretinogram of preterm infants, **F168**
retinal haemorrhages, Retinal haemorrhages and convulsions, **449**
reversible ventriculomegaly, Graves' disease associated with exophthalmos, cerebral ventricular dilatation and accelerated growth, **62**
Reye's syndrome, The changing clinical pattern of Reye's syndrome 1982-90: *letter,* **79**
ribavirin, Ribavirin and bronchiolitis: variation in use in the UK: *letter,* **385**
rotavirus, Randomised double blind study of hypotonic oral rehydration solution in diarrhoea, **272**

saltpetre, Faulty sausage production causing methaemoglobinaemia, **367**
sausage manufacture, Faulty sausage production causing methaemoglobinaemia, **367**
school refusal, School refusal and truancy: *annotation,* **90**
scoring system, Comparison of mortality risk: a score for very low birthweight infants, **F146**
screening, Perinatal risk factors for developmental dysplasia of the hip, **F94**
Strategies for antenatal detection of Down's syndrome, **F26**
seasonal effect of birth, Season of birth as predictor of atopic manifestations, **341**
sedation, Cardiovascular effects of intravenous midazolam after open heart surgery, **57**
seizures, Unilateral neonatal cerebral infarction in full term infants, **F88**
sepsis, Activation of the L-arginine nitric oxide pathway in severe sepsis, **203**
Haemopoietic colony stimulating factors for preterm neonates, **F128**
septicaemia, Blood culture volume and detection of coagulase negative staphylococcal septicaemia in neonates, **F57**
serum immunoglobulin A, Non-infective colitis in infancy: evidence in favour of minor immunodeficiency in its pathogenesis, **345**
severe combined immunodeficiency, Severe combined immunodeficiency with abnormalities in expression of the common leucocyte antigen, CD45, **163**
sexuality, Sexuality of young women surviving leukaemia, **197**
situs inversus, A diagnosis obscured: pyloric stenosis with situs inversus: *letter,* **385**
sleeping metabolic rate, Sleeping metabolic rate in infants: *letter,* **479**
sleeping position, Behaviour and physiological responses during prone and supine sleep in early infancy, **320**
sleeping state, Respiratory rate and body mass in the first three years of life, **151**
small for gestational age, Differential effects of preterm birth and small gestational age on cognitive and motor development, **F75**
Faecal chymotrypsin in small for gestational age infants: effects of nucleotides and breast feeding, **F201**
social factors, Differential effects of preterm birth and small gestational age on cognitive and motor development, **F75**
sorbitol pathway, Metabolic cataracts in newly diagnosed diabetes, **118**
spacer devices, Adrenal function and high dose inhaled corticosteroids for asthma, **405**
spina bifida, Involvement of deprivation and environmental lead in neural tube defects: a matched case-control study, **107**
spondyloarthropathy, Management of childhood arthritis. Part 2: chronic arthritis: *rheumatology,* **541**
stable isotopes, Gastrointestinal handling of [1-^{13}C]palmitic acid in healthy controls and patients with cystic fibrosis, **425**
^{13}Carbon mixed triglyceride breath test and pancreatic enzyme supplementation in cystic fibrosis, **349**
staffing levels, Neonatal intensive care provision in the United Kingdom 1992–3, **F197**
stature, Trends in growth in England and Scotland, 1972 to 1994, **182**
status epilepticus, Continuous midazolam infusion as treatment of status epilepticus, **445**
stereopsis, Visual impairment in very low birthweight children, **F82**
stomach, Role of epidermal growth factor and transforming growth factor α in the developing stomach, **F158**
stool specimens, Early administration of *Bifidobacterium breve* to preterm infants: randomised controlled trial, **F101**
stroke, Mechanisms of ischaemic stroke after chickenpox, **522**
Stroke due to arterial disease in congenital heart disease: *letter,* **175**
Unilateral neonatal cerebral infarction in full term infants, **F88**
subglottic haemangioma, Subglottic haemangioma, **458**
sucrose, Use of sucrose as a treatment for infant colic, **356**
sudden death, A study of bereavement care after a sudden and unexpected death: *letter,* **80**
sudden infant death, Posture and gastro-oesophageal reflux: a case for left lateral positioning, **254**
sudden infant death syndrome, Behaviour and physiological responses during prone and supine sleep in early infancy, **320**
Cot death after CESDI: *current topic,* **171**
Heart rate response profiles during head upright tilt test in infants with apparent life threatening events, **27**
Urinary antimony in infancy, **432**
sugar, Use of sucrose as a treatment for infant colic, **356**
supine position, Supine positioning of toddlers for throat examination: *letter,* **290**
surfactant, Surfactant improves lung function and mitigates bacterial growth in immature ventilated rabbits with experimentally induced neonatal group B streptococcal pneumonia, **F3**
systemic lupus erythematosus, Prolidase deficiency and systemic lupus erythematosus, **441**

teenagers, Injuries and the risk of disability in teenagers and young adults: *letter,* **175**
temperature control, Temperature control in very low birthweight infants during first five days of life, **F47**
testicular relapse, Survival and endocrine outcome after testicular relapse in acute lymphoblastic leukaemia, **190**
testosterone, Treatment of hypogonadal adolescent boys with long acting subcutaneous testosterone pellets, **495**
thalassaemia, Nutritional support and growth in thalassaemia major, **509**
thermal environment, Sleeping metabolic rate in infants: *letter,* **479**

throat examination, Supine positioning of toddlers for throat examination: *letter,* **290**
thromboembolism, Neonatal symptomatic thromboembolism in Germany: two year survey, **F163**
thrombolytic agents, Neonatal symptomatic thromboembolism in Germany: two year survey, **F163**
toddlers, Developmental quotient at 24 months and fatty acid composition of diet in early infancy: a follow up study, **421**
Supine positioning of toddlers for throat examination: *letter,* **290**
topical corticosteroids, Adult height in patients with childhood onset atopic dermatitis, **505**
toxicity, Controlled pilot study of rapid amphotericin B infusions, **165**
tracheobronchomalacia, Tracheobronchomalacia in preterm infants with chronic lung disease, **F203**
tracheostomy, Subglottic haemangioma, **458**
transcutaneous high pressure administration (jet), Growth hormone treatment without a needle using the Preci-Jet 50 transjector, **65**
transforming growth factor α, Role of epidermal growth factor and transforming growth factor α in the developing stomach, **F158**
transsphenoidal surgery, Transsphenoidal surgery for pituitary tumours, **398**
treatment, One week treatment for *Helicobacter pylori* infection, **352**
triceps, Trends in growth in England and Scotland, 1972 to 1994, **182**
truancy, School refusal and truancy: *annotation,* **90**
tube feeding, Effects of bolus tube feeding on cerebral blood flow velocity in neonates, **F54**
tuberculin test, Predictive value of a 24 hour tuberculin skin test evaluation, **452**
tubular phosphate reabsorption, Renal calcification in preterm infants: follow up at 4–5 years, **F185**
tumours, Corticosteroids in the management of central nervous system tumours: *personal practice,* **76**
Turner stigmata, Presence of Turner stigmata in a case of dysgenetic male pseudohermaphroditism with 45,X/46,X+mar karyotype, **268**
type 2 diabetes, Aetiopathology and genetic basis of neonatal diabetes, **F39**

ultrasonography, Third trimester fetal growth and measures of carbohydrate and lipid metabolism in umbilical venous blood at term, **F21**
umbilical venous blood, Third trimester fetal growth and measures of carbohydrate and lipid metabolism in umbilical venous blood at term, **F21**
uniparental isodisomy, Aetiopathology and genetic basis of neonatal diabetes, **F39**
urinary tract, Clinical relevance and implications of antenatal hydronephrosis, **F31**
urinary tract infection, Vesicoureteric reflux and timing of micturating cystourethrography after urinary tract infection, **275**

velocity, Growth monitoring with the British 1990 growth reference, **47**
ventilation, Effect of absent end diastolic flow velocity in the fetal umbilical artery on subsequent outcome, **F35**
very low birthweight, Comparison of mortality risk: a score for very low birthweight infants, **F146**
Early administration of *Bifidobacterium breve* to preterm infants: randomised controlled trial, **F101**
Randomised trial of dopamine compared with hydrocortisone for the treatment of hypotensive very low birthweight infants, **F174**
Visual impairment in very low birthweight children, **F82**
vesicoureteric reflux, Vesicoureteric reflux and timing of micturating cystourethrography after urinary tract infection, **275**
violence, Violence in children: *letter,* **289**
visual function, Visual impairment in very low birthweight children, **F82**
vitamins, Relation between dietary fat and energy and micronutrient intakes, **416**

wakeful state, Respiratory rate and body mass in the first three years of life, **151**
weaning, Weaning strategy with inhaled nitric oxide treatment in persistent pulmonary hypertension of the newborn, **F118**
weight, Trends in growth in England and Scotland, 1972 to 1994, **182**
weight for height index, Trends in growth in England and Scotland, 1972 to 1994, **182**
wheeze, Wheeze, cough, atopy, and indoor environment in the Scottish Highlands, **22**
withdrawal, Neonatal abstinence syndrome due to codeine, **F59**
workload, Neonatal intensive care provision in the United Kingdom 1992–3, **F197**

younger children, Heart-lung transplantation for patients under 10 with cystic fibrosis, **38**
